DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, and 4-7 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Neither prior art or record nor references teach a twistshifter for a bicycle comprising a housing fixedly mounted to a handlebar; an actuating element having a limited angle of rotation about the axis of the handlebar; a locking device defining the limited angle of rotation; wherein the housing includes a first latching element and the actuating element includes a second latching element; one of the latching elements having a hook contour and the other having a cutout in a complementary shape to the hook contour for engagement therewith; wherein the hook contour embodying a single piece with one of the housing and actuating element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. This application is in condition for allowance except for the following formal matters:

The drawings fails to show the alternative structures wherein the hook contour is embodied in a single piece with the housing and a cutout having a complementary shape to the hook contour formed on the actuating element.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
